

Sirs/Mesdames,

Make no mistake about it your decision on 02 Jun 2003 was un-American and fascist. If you want to turn the U.S. into a banana republic then those who voted for allowing even more media consolidation have met your goal. However, IMO your corporate taskmasters have misjudged and most Americans want rules in place that serve the public, rather than private, interest. Hopefully in 2004 those in employ and part of the George Bush Jr. regime will be swept out of office and the FCC can have appointments of people with some integrity. Mr. Powell's behaviour has been especially deceitful IMO.
